

MachShip

Freight Management, Simplified.

1300 622 474 — get.machship.com

annual freight spend through MachShip

MachShip consolidates your entire freight task into a single, powerful solution, providing logistics teams with measurable improvements in efficiency, control and visibility over the management of their freight.

average reported time reduced creating consignments

Launched in 2014, it was developed by a team of transport, logistics and software specialists and offers a range of features that lets customers seamlessly manage freight from quoting and generating consignments through to fulfilment.

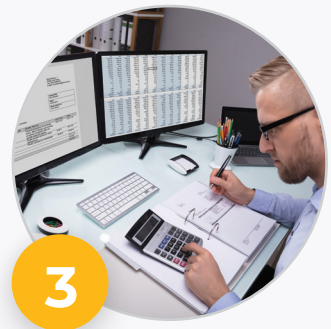

MachShip helps supply chain professionals:

Shed manual processes and disparate systems, allowing them to grow and scale

Gain visibility on carrier performance once freight has left the premises/warehouse

Automate their approach for identifying cost discrepancies and reconciling imbalances on their carrier invoices

"MachShip went above and beyond to facilitate our integration and set-up, and were constantly available for support. Their platform was easy to use and enabled us to work through 45,000 Big Freeze Beanie orders in less than 4 weeks. It would not have been possible without them. We can not thank them enough."

Adam Kinross, Fight MND

2,512+

businesses use MachShip

From invoice reconciliation alone our customers experience a **2.6x return of investment.**

“MachShip has substantially improved the accuracy of carrier service selection and our visibility over freight once it has left the warehouse. The system, with its easy to use, logical workflow has provided us with a single source of truth over the management of our freight and transport operations allowing us make more informed decisions on cost management and customer service.”

Joe Guthrie, Zenexus

EFFICIENCY

- Eliminate disparate and manual processes
- Access your carriers and manage your entire freight task in the one place
- From quoting or consigning to manifesting and tracking, reconciling with carriers and invoicing your customers – MachShip does it all
- Seamlessly integrate with your existing ERP, CRM or E-commerce platforms

CONTROL

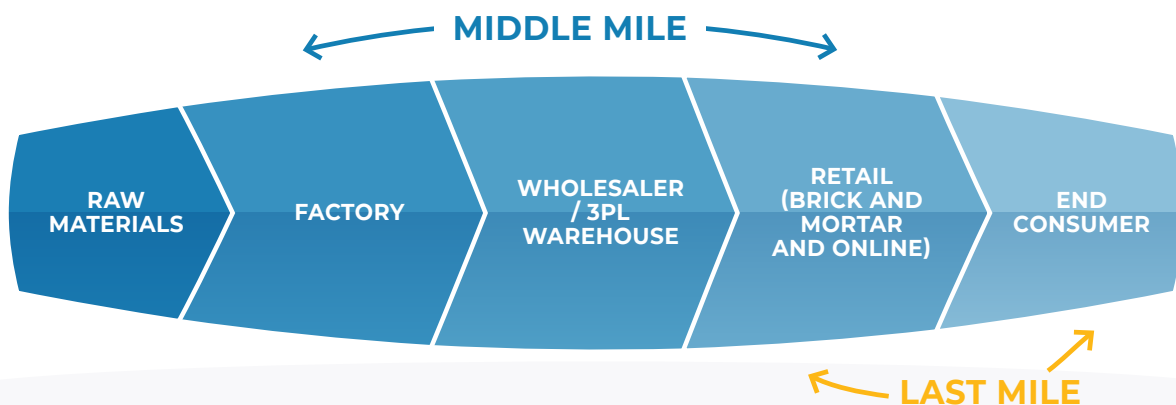

- Always know the best carrier for the job
- Auto manifest consignments at the right time
- Let MachShip be your single source of truth for accumulating a rich data set from which to make more informed decisions

VISIBILITY

- At a glance, get a snapshot of the current state of all your tracking statuses and transport statistics, including real time tracking, fiscal reports, operational reports, and work-flow notifications to the user
- Run what-if analysis to model the economic impact of changes in your freight profile over time

MachShip excels in the middle mile with its single-system efficiency and powerful data integrations...

...and provides unparalleled multicarrier visibility in the last mile.

Dashboards

“What I enjoy most, is how quickly I can go from Quote to Booking with no hassles.

The “Ready to Go” freight quote gives me information about cost, times and ETA which allows me to provide detailed information to our customers and team.

MachShip’s tracking system saves a huge amount of time when a customer calls in and is chasing their item because I can see exactly where it is. I can easily track when an item has been picked up, in transit and delivered. They also provide information on any delays or cancellations.”

Vanessa Williams, Blue Diamond

10 hours

average reported time saved fielding customer tracking calls per week

800k

consignments generated per month

200 carriers

MachShip seamlessly integrates with over 200 major Australian carriers

E-commerce Integrations

MachShip seamlessly connects with your e-commerce partner, automating manual processes, simplifying your entire shipping function and providing a superior experience for your customers.

We help make shipping easy.

Reduce Your Costs

- Optimise your carrier selection
- Audit reports identify best-value services
- Manage discrepancies on your carrier invoices

Improve Customer Experience

- Live tracking updates
- Real-time status notification
- Active Consignment dashboard

Assist Customer Service

- Complete access to quoting information
- Fully visible tracking data
- Effectively resolve customer enquiries

MachShip's integration with your e-commerce partner means you can go straight from order to consignment, while managing the freight directly within your current system.

Integrate with MachShip to help you scale faster.

Our highly technical integration team will be there to support you every step of the way to ensure a smooth transition.

Once integrated you can instantly connect your existing carriers and start shipping on the same day.
