# Feature Deep Dive: Single Order Fulfillment

The screenshot displays a software interface for order management. On the left, a list of orders is shown with columns for order ID, customer name, order type, and date. The order 'MNL-000015' is selected. On the right, the 'Details Pane' for this order is open, showing the order status as 'Ready', the order date as '05/22/2023', and a 'Print' button. Below this, there are tabs for 'Manual Entry', 'Back Order', 'Order Tag', 'Product Tag', and 'Single Item Order'. The 'History' section includes an 'Add Note' button. The 'Items' section shows a table with columns for 'QTY' and 'SKU'. The first item is '1' with 'SKU 456' and a price of '\$0.00'. Below the table, there is a 'PACKAGE TYPE' dropdown set to 'Box' and 'DIMENSIONS' fields with values '11', '6', and '4' in inches. A 'WEIGHT' field is also present but empty.

# Success Stories

*“Some of the most obvious advantages of using ShipKey are simple tag assignment, automation for package type and carrier, carrier rate rules, ship options by cost to days-to-delivery, and a lag-free software experience.”*

**Jake Harken,  
Dir. of Operations and  
Supply Chain**

*“What I like most about Shipkey is how fast the platform is. I love it! Speed is one of the most significant selling points for our team and allows us to process hundreds and even thousands of labels so quickly.”*

**Caleb Lee,  
CEO**

*“The biggest advantage of using ShipKey is that the postage pricing is available for you within the platform. It’s all on one page, you can easily select your box and weight, and it will automatically update all the pricing correctly.”*

**Sarah Alvarez,  
Owner and Project Manager**
